Event management wedding planner ↗

Sep 2024 - Oct 2024

This mini project is about creating a Wedding Planner and Event Management system to simplify event planning. It helps users choose venues, vendors, themes, and catering, while also managing budgets, guest lists, and tasks with reminders. The system offers real-time updates, vendor comparisons, and post-event reports to improve future planning. Its goal is to make event management easier and more organized for both clients and organizers.
