Welcome to My Profile!

I specialize in **Front-End Development** with strong skills in **React.js, HTML, CSS, and JavaScript**, combined with programming expertise in **C++** for problem-solving and a solid understanding of Data modeling. Currently, I am expanding my knowledge in **Node.js** to grow as a full-stack developer.

Quick Guide

- Skilled in building **responsive, user-friendly web applications** using **React.js, HTML, CSS, and JavaScript**.
- Strong foundation in **C++ programming & problem-solving** (Data Structures & Algorithms).
- Passionate about creating **modern, interactive, and efficient web solutions** with clean code and performance in mind.
- Currently learning **Node.js** to strengthen back-end development skills.

Education

Dr. APJ Abdul Kalam Technical University, B.Tech. in Computer Science Engineering (Artificial Intelligence)   Sept 2023 – June 2027
- GPA: 8.62/10.0

SSN Inter College, Mahoba (U.P. Board), Intermediate   2021
- Percentage: 85%

SSN Inter College, Mahoba (U.P. Board), High School   2019
- Percentage: 89.83%

Experience

Front-End Developer (Project Work)
- Developed responsive websites using **React.js, HTML, CSS, and JavaScript**.
- Built a **personal portfolio website** showcasing skills and projects with clean UI design.

Programming & Problem Solving (C++)
- Implemented solutions for **arrays, strings, recursion, sorting, and searching problems**.
- Created a service to provide gradient across VS and VS add-ins, optimizing its performance via caching
